Optional Operation Security Systems :
Security should not be **an** option.
That's why we offer **several** options.

BULLPEN

PATENT PENDING

An exclusive **mobile security belt** that defines a secure area for the entire ejection cycle.

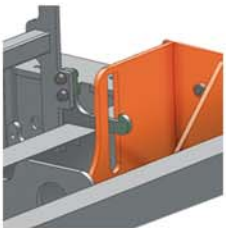

150 400 ☒ 800 ☒ 1050

PATENT PENDING

BULLGUARD

An automatic barrier that opens at the ejection of a bale, protecting the operator from potential injury.

150 ☒ 400 ☒ 800 ☒ 1050

BULLHORN

PATENT PENDING

Unique security protection against ram fall-down at door opening

☒ 150 ☒ 400 ☒ 800 ☒ 1050

SECUREPAK

CSA Approved security control safety management system making impossible to bypass security operations.
